[Join online meeting](#)

Using Microsoft Lync online meeting format for conference calls and online meetings: Online meetings can be attended either by calling in via the phone number below or joining the call via your computer. If joining via your computer, you have the option of streaming the sound through your computer, or turning the sound off and dialing in separately. With Lync, meeting initiators and meeting participants can share their desktops for demonstrations. If using an older PC check and make sure Microsoft Silverlight is installed. Also, to prevent connection interruptions, do not allow your PC to time-out (sleep), either by moving the mouse frequently, or temporarily configuring in the Power options to not time-out. Let me know if you plan to attend through the Lync online meeting or by phone, or plan to attend in person.
